

System-level  
directive

```
graph TD; A[System-level directive] --> B{All information explicit in text?}; B -- Yes --> C[none]; B -- No --> D{Resolvable from repository?}; D -- Yes --> E[project]; D -- No --> F[task];
```

The flowchart starts with a box labeled 'System-level directive'. An arrow points down to a decision box 'All information explicit in text?'. From this box, a 'Yes' path leads right to 'none', and a 'No' path leads down to another decision box 'Resolvable from repository?'. From the second decision box, a 'Yes' path leads right to 'project', and a 'No' path leads down to 'task'.

All information  
explicit in text?

Yes

none

No

Resolvable from  
repository?

Yes

project

No

task
